Portfolio : yashraj1054.github.io/Portfolio
Github : github.com/yashraj1054

PROFILE SUMMARY

Full-stack developer skilled in MERN , with hands-on experience building production-grade applications, designing scalable REST APIs, and integrating AI models using Ollama. Solved 100+ DSA problems and worked on industry-level projects used by real users.

EDUCATION

DR. A.P.J. ABDUL KALAM TECHNICAL UNIVERSITY, LUCKNOW

2021-2025

B.Tech in Computer Science (CGPA: 7.44)

SKILLS

- **Languages** : Java, JavaScript, Python, SQL
- **Frontend** : React JS, Redux, HTML5, CSS3
- **Backend & Database**: NodeJS, ExpressJS, MongoDB, MySQL, RESTful APIs
- **Tools & Concepts** : Git, GitHub, JWT (JSON Web Tokens), DSA, OOP, DBMS

WORK EXPERIENCE

Dhruwraj Healthcare | (Freelance Web Developer)

JAN'26 - MAR'26

Project Link : www.dhruwraj.com

- Developed and deployed a high-performance static website using React.js and Tailwind CSS, ensuring a fully responsive UI/UX for local clinic patients.
- Architected a serverless hosting solution on Google Firebase, leveraging the free tier to minimize initial overhead while establishing a scalable infrastructure for future growth.
- Integrated a custom lead generation system using forms connected to WhatsApp API with pre-filled messaging, streamlining the consultation booking process.
- Managed brand protection by facilitating the official trademark registration of the clinic's logo.
- Strategized digital growth by providing a roadmap for social media presence and SEO, aimed at increasing local search visibility in the Kanpur region.

INTERNSHIPS

Celebal Technologies | (Summer Intern)

May'24 - July'24

- Designed a normalized MySQL relational database schema to ensure data integrity during critical financial transactions like fund transfers, deposits, and maintaining accurate transaction history logs.
- Developed optimized JDBC-based backend improving transaction processing speed by 10% and ensuring 100% data integrity across hundreds of financial records

PROJECTS

Role Based News Portal

Project Link : <https://thenewsone.vercel.app/>

Tech Stack : React, Node.js, Express.js, MongoDB, JWT, RBAC

- Architected a full-stack MERN content management platform, implementing secure Role-Based Access Control (RBAC) to define distinct permissions for Admin, Editor, and User personas.
- Designed robust RESTful APIs to handle complex CRUD operations and manage a complete editorial publishing workflow (Draft to Published).

AI-Powered RFP Management System

Project Link : <https://github.com/yashraj1054/rfp-ai-system>

Tech Stack : React, Node.js, Express.js, MongoDB, JWT, Nodemailer, Ollama

- Architected a full-stack MERN application to automate the Request for Proposal (RFP) lifecycle.
- Integrated local AI models via Ollama for intelligent proposal parsing and automated vendor scoring, reducing manual review time.
- Implemented Nodemailer for automated, secure vendor communication workflows.

CERTIFICATIONS & ACHIEVEMENTS

- SQL and Database (Infosys Springboard)
- Solved 100+ problems on LeetCode
- 3-Star in SQL and 4-Star in Java on HackerRank
